Previous Rejections

Unless specifically repeated/maintained infra, all previous rejections are withdrawn.

Obviousness Rejection (New)

Claims 8-10, 13-17, 20 and 21 are rejected under 35 USC 103(a) as being unpatentable over Rudin et al (USP 6,919,070) in view of Baines et al (USP 4,098,878).

The primary reference has been discussed at length previously and differs from the instant claims insofar as it does not specify surface treatment of the inorganic particles (hydroxyapatite and other abrasives) contained in its dentifrice compositions.

The secondary reference teaches that it is well-known to surface-treat inorganic particles (abrasives) in dentifrice compositions in order to improve their compatability with potentially reactive components such as fluorides; in doing so, the particles are also stabilized against agglomeration. See column 6, lines 60-64. Surface treating agents include water-soluble surfactants (column 7, lines 30-34) which may be nonionic (column 3, lines 19-45). Although a variety of known abrasives are disclosed (column 8, lines 12-20), the secondary reference differs from the instant claims insofar as hydroxyapatites are not specifically mentioned.

It would have been obvious to have surface-treated the hydroxyapatite particles of the primary reference with water-soluble surfactants, motivated by the desire to provide the improved compatability taught by the secondary reference.

Action is Final, Necessitated by Amendment

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
